Casa del Caballo Blanco the lodge, was conceived as a host for the support of an ex-situ biodiversity conservation facility dedicated to avian rehabilitation and release. The center is known as Casa Avian Support Alliance (CASA), a Belize Non-Governmental Organization (NGO).

CASA, a non-profit undertaking will depend in part on periodic visits by veterinarians interested and concerned with preservation of avian wildlife. A percentage of each cabana rental will be donated to the CASA facility to assist with medical and other expenses related to the management of the facility.
